The Plan & Logistics- Suit Up September:

You will need **2 volunteers** to act as witnesses/record keepers for the event.

They will be responsible for bowler registration, handing out the "Suit Up September" badges, checking that each participant is wearing a tie/bowtie and live streaming the record attempt. If you can get more volunteers for streaming etc it would help.

We will Organise the paperwork and help with the logistics of how to live stream each green before the time, but your club will be responsible on the day.

Saturday 27th September 2025:

Bowlers and Non-Bowlers to register between 13h00 and 14h00.

It is up to your club to decide how to divide the bowlers up. We know some bowlers don't want to play with newbies / mixed etc and that is okay. Today is about awareness of bowls and Prostate Cancer. You can play pairs, trips or Fours, any combination.

The games will be pre-drawn so that we can print the cards out before the time and get them to you. People will also know where they are going to be bowling and be ready. There will be spare cards if needed.

The most important thing is getting everyone on the green as soon as possible. We've left 30 minutes for this as the Guinness World Record Attempt starts at 14h30.

We will have a WhatsApp group for the organizers to start at the same time in case there are delays at a club because the record is for the largest number of bowlers playing lawn bowls **AT THE SAME TIME.**

Each rink MUST have a scorecard which needs to have the player's names on. 6 ends MUST be played for this to be deemed a valid attempt. The cards **MUST** be signed, and the start and finishing time **MUST** be recorded for the **6th end**.

Obviously, you should carry on playing as many ends as you want but only 6 is needed for the GWR attempt.

I have done this before and know that if the systems are in place, this runs smoothly and Guinness World Records will Confirm our Record.

This is a great opportunity to get local sponsors involved and the community, local businesses and schools, grandparents, parents and children. Get in the local newspapers and Facebook Groups.

We will provide support but we can't be at every club so you will need to rope in helpers.
